Dozzle – Homelab Guide

Purpose: Real-time Docker container logs in the browser; lightweight alternative to Loki/Promtail.

URL: http://$NODE_IP:8888

Placement

- Stack: stacks/monitoring
- Compose: stacks/monitoring/dozzle.yml (service) + stacks/monitoring/ports.override.yml (8888:8080)
- Network: core (external)

Homepage Integration

File: stacks/homepage/config/services.yaml → under the Monitoring group add:

```
- Dozzle:
href: http://$NODE_IP:8888
description: Live container logs
status: http://$NODE_IP:8888
target: _blank
```

Restore

Script: ops/restore_dozzle.sh
Usage: bash ~/homelab/ops/restore_dozzle.sh

Verification / Health

docker ps --filter name=dozzle
curl -s -o /dev/null -w "%{http_code}" http://$NODE_IP:8888 → expect 200

Notes

- Uses /var/run/docker.sock (read-only).
- No secrets required.
- Restart policy: unless-stopped.
